Not the beetle that was
saved, but still a BIG one!

The bugs can get pretty big in the South. My sister tells me that some of the beetles get to be the size of small rodents. She found one of them doing the back-stroke in a barrel where she catches rain run-off from the roof to water her plants. She didn't think much about it, just grabbed the water she needed and did her watering. The beetle was floating, legs-up in the barrel the next day, and once again, she gave it no thought as she filled her watering cans. The third day, she saw it wasn't moving, but was too short of time to dispose of the thing. She quickly did her watering and left to do her errands. She found the beetle there again on the fourth day, still dead. She took the time to locate a small net buried with the other junk in her garage. When she got back to scoop the bug out, she thought she saw one of its legs move. Sure enough, when she brought the net close enough, it grabbed hold of the net and hung on while she carefully transported it to one of her nearby bushes. It slowly climbed up the stem, where she left it to eat her carefully tended bush. She said that anything that had managed to survive that long under those circumstances deserved a decent meal. Later, she saw that the beetle had flown away, probably to dine off her other bushes. She still felt good about her rescue, though, even if it was one of those disgusting beetles.

I thought this was a good critter rescue story to start my attempt at including other critter rescues in my now twice-a-month newsletter. It's also a good lead-in to the fourth book in the Robin Kould and Mary Yen Rescue Series, **LOKI**.

Loki is one pretty disgusting looking dog when he is rescued from a puppy mill along with more than a

hundred other dogs. Robin and Mary call on their classmates for help in finding homes for them, and Loki is instrumental in saving their student talent show from disaster. The themes of compassion, determination and cooperation are interwoven in this **Robin Kould and Mary Yen Rescue**.

The eBook version of **LOKI** is expected to be available in late September followed by the print version in October. In the meantime, if you've already read **BOMBO**, **POPPY**, and **BRUISER**, you might want to read another good dog rescue book by Stella Perrott, **FINDING FREEWAY**. Look for the book's description and link at the end of this newsletter.

A Great Dog Rescue Story with a Mystery!

On their way home from a horse show, Lizzy and her parents encounter a small dog darting perilously close to the freeway. Compelled by compassion, they rescue the frightened animal and welcome him into their family, naming him Freeway. His origins and intended destination remain a mystery, sparking curiosity and wonder. Freeway proves to be a bundle of joy and energy. He's affectionate, brave, independent, and playfully mischievous, delighting in accompanying Lizzy and her friends on their horseback rides across the moors.

However, intrigue deepens when Freeway mysteriously vanishes one evening, only to return with an unexpected and lavish item. Questions abound: Where did he find this luxurious gift? What secret adventures is Freeway embarking on?
